Here is the breakdown of the business coaching services offered by [MnM Ventures LLC](#):

The Core Coaching Focus

The company specializes in **practical, no-jargon business coaching** specifically tailored for **very small, micro-businesses, and independent small business owners**.

Instead of teaching generic corporate theories, their coaching acts as a partnership to help owners **get unstuck**, find direction, and build smarter operational systems.

What the Coaching Services Provide

- **Clarity & Direction:** Helping you step out of the daily overwhelm to make clearer, structured business decisions.
- **Accountability:** Keeping you on track with customized goals so your ideas turn into real, steady growth.
- **Outside Perspective:** Identifying areas where you are losing time or wasting resources, and smoothing out your business flow.
- **System Building:** Designing practical, everyday plans to make your small business run more efficiently.

How Their Coaching Works

- **Coaching vs. Consulting:** They define coaching as a collaborative partnership to build your skills and habits over time, whereas their consulting services are treated as shorter, project-based tasks to solve single problems.
- **The Framework:** Founded by Michael Bingham, the coaching utilizes certified project management standards alongside executive coaching credentials to ground advice in highly actionable steps.
- **Zero-Obligation Intro:** They require a free 30-minute exploratory call before taking on a client to ensure the partnership is a good fit.

Getting Started
